Matching Numerals  
to Sets 0-10

# SUMMER CRABS

KidSparkz.com

This is a game to make to develop and practice the concept of matching numerals to sets 0-10, using the theme of crabs. It is in color and b/w.

Use to make a center, or a cut and paste activity for preschool and pre-K children. I have included a cover page if you wish to make a file folder game.

I add FREE items often. Follow on TpT and Pinterest to get them as soon as they are listed.
