Dinosaurs Trace and Count

Here are three dinosaur-themed tracing and counting pages for early learners. Count the groups, recognize and trace the numbers, add extra details and color if desired. At the bottom of each page is a picture about how we can see what dinosaurs once looked like - buried dino bones, a paleontologist digging up the bones, and a completed skeleton in a museum.

I add FREE items often. Follow on TpT and Pinterest to get them as soon as they are listed.
