I Can Read Shape Words

Name: ____________________

I see a circle.

I see a triangle.
I see a square.

I see a rectangle.

I see a rhombus.
I see a trapezoid.

I see a pentagon.

I see a hexagon.
I see an octagon.

I see an oval.

I see a crescent.
This is a booklet to make to review 11 shape names. Each sentence uses the same predictable format. On each page, there is a graphic of the shape, a child holding the shape, and a real-life example of the shape. Just use the pages you need. The shapes included are: circle, triangle, rectangle, square, pentagon, hexagon, octagon, trapezoid, rhombus, oval and crescent.
