Superheroes Numbers to 30

This is a set of flying superhero number cards, 0-30. I have also added some starburst cards to extend your lessons. You could hide a starburst card behind one of the superheroes. Children guess which superhero hides the starburst. Play as a group game in a pocket chart, or in a grid at circle time on the floor. Cards can be used for number order, sequencing and number recognition. . Print on cardstock and laminate for longest use.
